

History - Transport

Year Two

Vehicle

Transport

Travel

Journey

Modern

Past

Steam engine

Petrol engine

Electric cars

By the end of this unit you will be able to name a variety of different modes of transport. You will be able to describe and compare the similarities and differences of transport from the past and present.

Important information

How do you travel to school?

Walk

Car

Bus

Bike

There are lots of different forms of transport and vehicles.

Some vehicles travel on the road – cars, motorbikes, lorries, trucks, vans, ambulances, fire-engines, bicycles

Some travel in water – ships, boats, hovercrafts, submarines

Some travel in the sky – aeroplanes, helicopters, hot-air balloons, rockets

Which different modes of transport have you used?

The history of transport –

History - Transport

Year Two

By the end of this unit you will be able to name a variety of different modes of transport. You will be able to describe and compare the similarities and differences of transport from the past and present.

	Lesson Question	What you will learn	Learning Review
1	What different types of transport are there? What are they called?	You will learn about different vehicles – what they are called, who uses them, how they are powered.	
2	What has changed about cars over time?	We will go outside and look at the cars in the car park. What features do they have? What's the same/different about the cars? We will look at the history of cars.	
3	Can you compare bikes from the past and present?	You will learn about different types of bikes – from the past and present. You will discuss the shapes and features as well as compare and contrast bikes. You will learn about bike safety – wear a helmet, don't ride on busy roads, stop when you cross a road etc.	
4	Can you name the different ways that humans have tried to fly throughout history?	You will look at the different ways to travel by air. Have you travelled using any of these? You will learn about the different ways that humans have tried to fly throughout history.	
5	What are trains used for?	You will learn about different types of trains – Why don't we use steam trains now? What are trains used for? Why do we sometimes use trains instead of cars or aeroplanes?	
6	What is the difference between the old and new versions of the same vehicle?	You will learn how to compare travel and transport of the past and present. You will begin to think about transport in the future. Can you compare the future to the past and present?
