Important information

Creation- Digging Deeper

PUPILS WILL KNOW THAT CHRISTIANS BELIEVE:

- God created the universe.
- The Earth and everything in it are important to God.
- God has a unique relationship with human beings.
- Humans should care for the world because it belongs to God.

This unit is part of Understanding Christianity and leads on from the Year 1 Creation Unit.

The story of Creation opens the Bible. For Christians, it sets out the relationship between God, the universe and all life. It reveals God as powerful (able to create a whole universe from nothing), creative (the beauty and diversity of the created world), orderly (the careful structure of the events of creation), and concerned with the role and value of life (Creation is prepared for life, with human life as the pinnacle, made in God's image).

For year 2, we are building on the teaching from year 1 and will explore the narrative account, how much it reveals about what God is like, and what it reveals about the place of humans in the world. Controversies about the relationship between this account and science will be explored further up the school.
